

pendice

The graph illustrates the relationship between Time and Value. The data points show a general upward trend, with several peaks and troughs. The values range from approximately 10 to 100. The x-axis is labeled 'Time' and the y-axis is labeled 'Value'.

The data points are represented by small colored squares (red, blue, green, yellow) and the lines are dashed. The graph shows a series of data points connected by lines, with a general upward trend. There are several peaks and troughs, indicating fluctuations.

The values range from approximately 10 to 100. The x-axis is labeled 'Time' and the y-axis is labeled 'Value'. The graph shows a series of data points connected by lines, with a general upward trend. There are several peaks and troughs, indicating fluctuations.
